**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1 - 16, drawn to a developer solution, classified in class 430, subclass 464.
  - II. Claims 17 - 31 and 50 - 62, drawn to a method of developing a photographic film, classified in class 430, subclass 401.
  - III. Claims 32 - 49, drawn to a film processing system, classified in class 396, subclass 604.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group II and Group III are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process may performed manually or by a different apparatus.
3. Inventions of Group I and Group II are related a process and a subcombination used in the process. The inventions are distinct because the developer solution, the subcombination, may be used with a different process.

Art Unit: 2851

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Group I and Group II is not required for Group III, restriction for examination purposes as indicated is proper.

6. A telephone call was made to Mr. M. Miller (Reg. No. 35,953) on December 12, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
